

Friends of Woodard Creek have come to focus on the following points which we believe will impact and be beneficial to ALL park users.

1. Kids not having to cross a road to get to park facilities
2. Planned, well-organized parking
3. Foundation for a trail roughly paralleling Woodard Creek
4. Beautification of park entrance
5. Drainage and flooding issues
6. Restoration of Woodard Creek

FWC believes that road realignment may address the first four issues.
