Continuing discussion, planning for path design

Dave Brann shows us a guide to path design from Minnesota Department of Natural Resources and other sources. We are aiming for a ten foot gravel path with sections of wetland and water crossings which will require other techniques. Techniques we are examining are all city approved. Page numbers here refer to hid guide to path design.

Page 27 - bridging, grading discussed. Page 29. NFS means non-frost susceptible. P 6.46, p 6, p. 6.58 boardwalks and bridges, ways to cross drainages. Bridge would be needed to go down to Spit from airport parking lot. That grade is very steep on the road (12%). Regarding airport leasing, there is a 50 foot x 2 DOT right of way.

Dave Brann recommends we use these materials to develop a final packet to present to City Council. Dave will ask Renee if she can create a packet for the committee. He suggests we draw a line on the map and ask Renee to copy it for the committee. Kevin Walker discusses with committee the segment from airport to Spit.

Dave Brann suggests we meet as an announced group and walk that section and other sections. We select December 10, 11-1 p.m. We invite Kevin to join us. Meet at airport parking lot and go to wetlands at other end of path.

Kevin discusses the sheet he created, accurate to +/- 100 feet. We use these numbers to identify suggested areas for trail types. Dave wants to correlate these numbers to the map.

Bring to field day: 100' tape, GPS device, range finder binoculars.

We break for five minutes and reconvene around visitor table. We correlate numbers to map. We will generate even more detail during field trip.

We return to U-shaped table and continue meeting. City council meeting, November 28, Dave Brann and Bumppo will attend, and will advise City Council of level of detail we have attained.
