Hornaday Park Parking Lot Gravel

---

Public Works is ready to provide a gravel surface to the newly expanded Hornaday Park parking areas. This summer Builders Services was afforded the area east of the Hornaday Park access road as a disposal site for excavation from the hospital expansion project. Materials were hauled, placed and shaped at no cost to the City. The parking area is now doubled in size. To complete the project a minimal 4" cap of gravel is needed. Material will be Type A (3" minus).

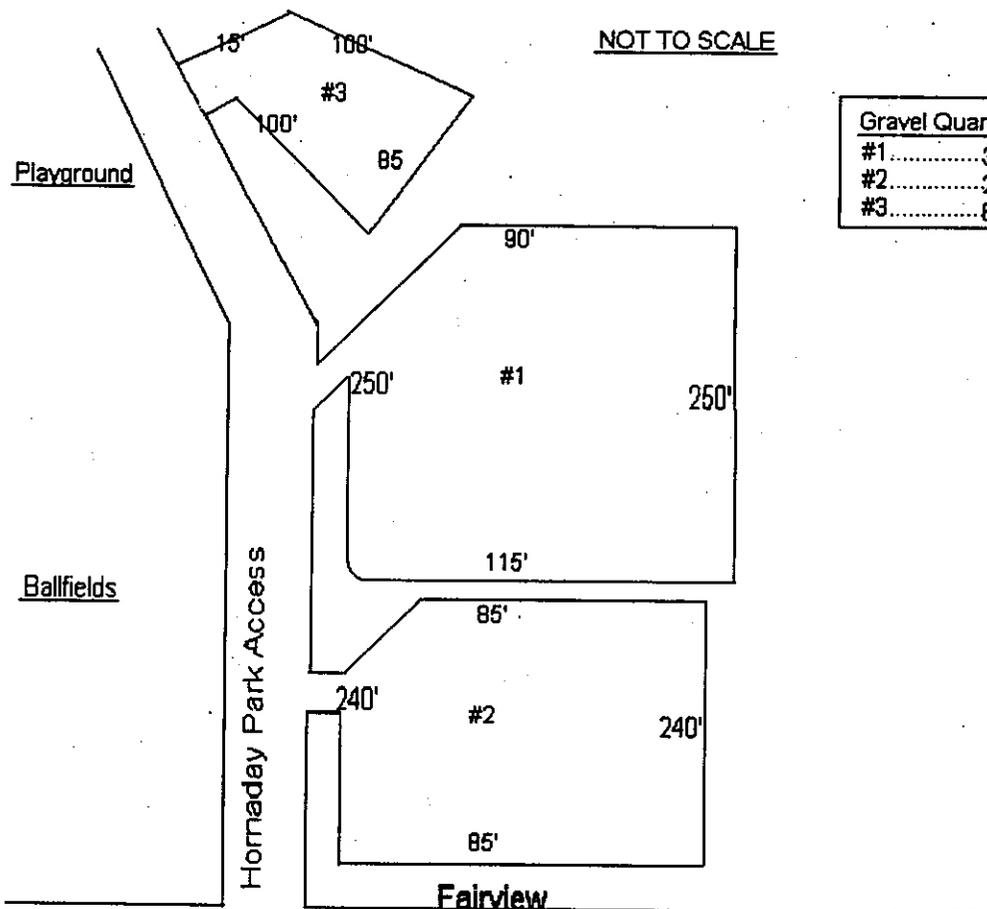

On 11/30/99, a Fax-Back was initiated to obtain bids for the resurfacing project. Builder's Services was the only contractor to reply. The funding for this project is within the Parks 1999 maintenance budget.

Attached is the Purchase Order for this work and a copy of the draft notice to proceed that will be used to authorize the work upon your approval.

**Recommendation:** We recommend the approval of this budgetary expenditure to guarantee the parks readiness for next season. Please coordinate the preparation of the appropriate resolution.
